will commence anew, without reliance upon the testimony and arguments presented on past occasions.

7. On June 2, 2014, the defendant filed his amended motion for a new trial, with an accompanying affidavit, and a motion to impound that affidavit.

8. On June 5, 2014, the Commonwealth was given 60 days in which to file a response.

9. Once the Commonwealth received the motion for a new trial, I began to assemble the papers and transcripts in the case. I discovered that in the intervening ten years from the last hearing, the transcripts and previous case file had been lost.

10. I contacted both stenographers involved in the case to obtain new copies of the trial and motion for new trial transcripts.

11. Because of difficulties with the age of the transcription data and the new transcription programs that have been developed and used since 2001, the Commonwealth did not receive any transcripts in this case until the week of July 21, 2014. That included a complete copy of the transcript relied upon by Dr. Ebert in forming his opinion that the defendant was not competent to stand trial during his trial.

12. First Assistant District Attorney Brian Glenny was away on a pre-scheduled vacation the week of July 28, 2014.

13. After a review of the transcripts and the papers, the Commonwealth is requesting that this Court allow this motion for its expert, Dr. Martin Kelly, to examine the defendant in this matter, as it relates to his criminal responsibility at the time of the trial in this case.

14. The Commonwealth does not concede that the defendant has presented a *prima facie* case, however, there does not appear to be any other mechanism for filing this type of motion, post-conviction other than pursuant to Mass.R.Crim.P. 30(c).

SIGNED UNDER THE PAINS AND PENALTIES OF PERJURY THIS 6TH DAY OF AUGUST, 2014.
